Thanks Richard.

Paula Smith, this is the first of three documents I'll send you--the outline and TPs. As you can see, the outline needs work at the beginning. We also should get some clarity around Shaun's role in the presentation.

Thanks. Joan

Andrea – Several suggested edits. The ARARs comment is the only substantive comment.

Also, I have not been able to find a succinct write-up on the removal process. I have reached out to some folks and hope to find something we can use or adapt.

My proposed edits attached. Please let me know if you see inaccuracies. Also, need an insert on the "removal process" and some more detail on the Review Board. Thanks. Joan

Attached are the talking points pull together from the various contributors. There are a few gaps in the talking points. Let me know if there is anything critical missing or need more information.

Joan – Victor Ketellapper and I are working on this and the AE's Qs simultaneously. I am pulling all of the AE's Qs into final form from team member edits and Victor is pulling together Talking points into final form. Both should be arriving shortly.

Cynthia: Thanks for this. Several answers, again, suggest some bias in favor, or an expectation of NPL listing. I can wordsmith these a bit (changing woulds and wills to cans and mayes) for the talking points. Paula, are you pulling the TPs together as Cynthia suggested? Thanks everyone, for your contributions.

I see in a draft answer that you are proposing to add documents to the Upper Animas CERCLA website. Please do not post new documents on that web site without ensuring they also go through the GKM web site posting process. Are those site assessments mentioned in this attachment on the GKM web site already?

All,

Attached are some draft bullets to include in the section titled "Community Involvement Approaches/Authorities." Please edit as needed.

Thanks!

Importance: High

All, thanks for the effort here, but it reads to me like an advocacy paper for NPL listing, which is not our goal for the meetings. Here's a suggested outline for the TPs. I've also added LEP, which I think can probably readily provide TPs on many of these items.

CERCLA/Superfund

What is it? What is its purpose?

1. Removal authority
2. Remedial authority
3. NPL

How does it work?

1. Removal process
2. Remedial/NPL process

Examples in our Region

Limitations for NPL sites

1. Long term funding
2. Multiple PRPs
3. Orphan sites
4. Geography/Area of Impact
5. Cleanup goals

Community Involvement Approaches/Authorities

Community specific concerns

1. Silverton soils
2. Downstream interests
3. Site name

Is it possible to turn around a new draft by 1pm? If not, please tell me when. We need to get this to OSWER asap. Thanks. Joan

Subject: San Juan Talking Points for Mathy/Shawn

Attached is the draft talking points for Mathy & Shawn's visit to San Juan County on Wednesday. There is one statement in the text that should be confirmed with David Ostrander or someone else in the Removal Program on the current discharge from the Gold King mine.
